Create:

Create as many Scrapplets as you want about anything you can imagine. Combine them into your own virtual web site.

Customize:

Pages can include your favorite pictures, links, friends, widgets and just about anything else you find on the web.

Share:

Share your Scrapplet pages with your friends, family and associates. Send messages via Facebook, MySpace or the web.

Add Your Friends:

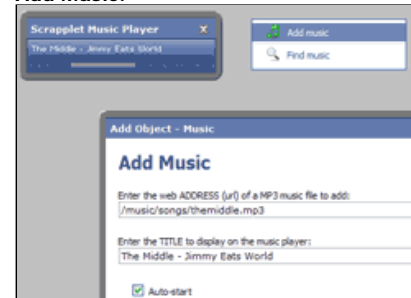

Integrate your Facebook and MySpace friends directly into your Scrapplet pages, including profile picture and links.

Add Your Photos:

Include your MySpace and Facebook photos in your Scrapplet pages, or include any pictures from the web.

Add Music:

Add music to your pages using the Scrapplet music player or any music widget.

Add Video:

Add video to your page using the Scrapplet video viewer, or drag videos directly from YouTube and other places on the web.

Add Widgets and Websites:

Embed whole websites in your Scrapplet pages, or add links or buttons. You can also add any web-based widget or gadget.

Add Newsfeeds:

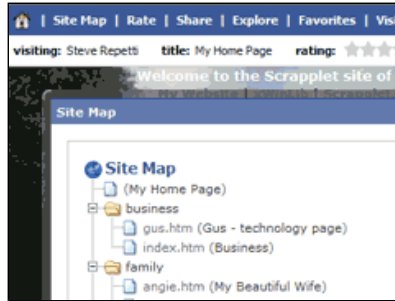

Add newsfeeds, including rss and atom, directly to your Scrapplet pages.

Rate:

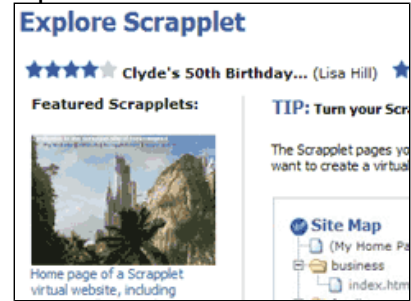

Rate your pages and leave comments, top rated pages earn points for more pages and premium content.

View on the Web:

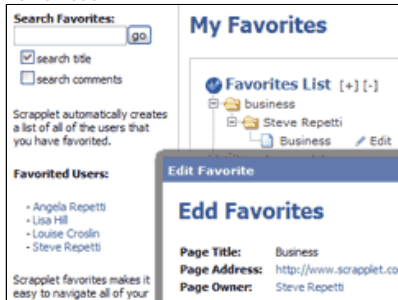

Your Scrapplet pages are optionally available on the web as a virtual website with automated site map.

Explore:

Tips, tricks, featured Scrapplets, and the most recently rated pages are available from the explore screen.

Favorites:

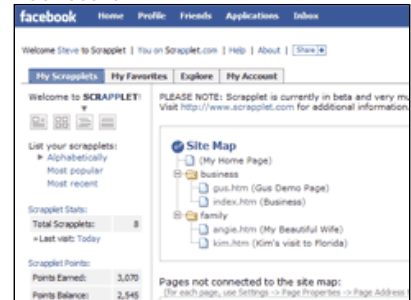

Save your favorite Scrapplets into a Favorites list, which can be nested, filtered, and search.

Your Account:

Track your Scrapplet points, specify which of your pages is your "home page," define your personal web address.

Dashboard:

The dashboard provides easy access to the Scrapplet application and all of your Scrapplet pages.

Real-time Stats:

Scrapplet provides real-time access to page stats, rating histories, and other helpful information.

Data Portability:

Scrapplet information embraces the concepts and ideals of Data Portability (www.dataportability.org). Information can be exported and imported as well as a converted to a variety of formats.
